DETAILED ACTION

Drawings

1. The drawings are objected to because in figure 4 of the drawings it appears "7.2" should be "7.6". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

1. Claim 32 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper

Art Unit: 3664

dependent form, or rewrite the claim(s) in independent form. The claim is an independent claim that tries to depend on another independent claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 3. Claims 17-36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 4. Claim 17 recites the limitation "job data records" in lines 9, 10 and 12. There is insufficient antecedent basis for this limitation in the claim. Are these the same records as already mentioned in the claim on line 6 or are they different ones?
- 5. Claim 17 recites the limitation "said communication unit transmits job data records to the vehicle terminal" but the communication unit is part of the terminal. Was this supposed to read computer instead of terminal?
- 6. Claim 21 recites the limitation "the previous job locations and job bookings" in line 3. There is insufficient antecedent basis for this limitation in the claim.
- 7. Claim 21 recites the limitation "the next job location" in line 4. There is insufficient antecedent basis for this limitation in the claim.
- 8. Claim 21 recites the limitation "the updated route" in line 4. There is insufficient antecedent basis for this limitation in the claim.
- 9. Claim 18 recites the limitation "the next job location" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 3664

10. Claim 22 recites the limitation "the associated job data" in line 3. There is

insufficient antecedent basis for this limitation in the claim.

11. Claim 26 recites the limitation "said at least one further center that places the job"

in line 3. There is insufficient antecedent basis for this limitation in the claim.

12. Claim 33 recites the limitation "the associated job data" in line 3. There is

insufficient antecedent basis for this limitation in the claim.

13. Claim 34 recites the limitation "the associated job data" in line 3. There is

insufficient antecedent basis for this limitation in the claim.

14. Claim 36 recites the limitation "said at least one further center that places the job"

in line 3. There is insufficient antecedent basis for this limitation in the claim.

15. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall

set forth the best mode contemplated by the inventor of carrying out his invention.

16. Claims 19 and rejected under 35 U.S.C. 112, first paragraph, as failing to comply

with the enablement requirement. The claim(s) contains subject matter which was not

described in the specification in such a way as to enable one skilled in the art to which it

pertains, or with which it is most nearly connected, to make and/or use the invention.

The specification never explains how the vehicle computer determines if the new job

can be handled.

Allowable Subject Matter

Art Unit: 3664

17. Claims 17-36 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraph, set forth in this Office action.

18. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose using two dispatch centers to setup a vehicle manifest.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRIAN J. BROADHEAD whose telephone number is (571)272-6957. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Khoi Tran can be reached on 571-272-6919. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
